

I am writing in regard to Low Power FM stations taking priority over current FM translator services. I currently listen to K-LOVE at my home, in my vehicle, and at work. This is a family friendly radio station that I am not afraid to listen to in front of my peers, parents, and children who may be present. The stories and testimonials I hear every day are uplifting and inspiring. There have been several days that the music played on K-LOVE has gotten me through. I also know of many people in my community that listen to this station. I feel it would be a great loss to our area if this station were to be taken off the air because of the lack of quality radio stations in this area. Please reconsider your proposition of replacing these type stations.
